

## Complimentary 60-Minute Discovery Session: Healing Your Pet's Unsolved Issues

**As a committed “pet person”, you want to do all you can to ensure your pet lives the best life they can. Their problems become your problems, which can cause you terrible worry and stress.**

**People usually seek me out after there is already a problem with their pet.** They come to me seeking answers, and relief from their stress. Most commonly, they are at an impasse with what they’ve learned or tried so far.

I designed my one-hour Discovery Session to give you an idea of what it’s like to work with me. We’ll explore your current problems, and I’ll explain my approach and how I might be able to help you and your pet. I’ll answer any questions you have about working together, and also help you to:

- Identify your pets’ most pressing problem areas, where you can immediately make significant improvements for them
- Gain more clarity about the life you want for you and your pet
- Discover what is stopping you both from having this ideal life

**Spaces for Discovery Sessions are limited; call 206.755.8152 to reserve the next available spot. (International callers can use WhatsApp to dial +1 206 755 8152)**
